

Kraft Paper Holder Roll

[VIEW IN BROWSER](#)

updated 10. 5. 2020 | published 10. 5. 2020

Summary

Uses 3/4" sheet for the base, 1/4 machine nuts/bolts, 7/8" dowel — and some tape to fine-tune clearances.

Uses 3/4" sheet for the base, 1/4 machine nuts/bolts, 7/8" dowel — and some tape to fine-tune clearances.

The foot is designed to print with TPU (1" forstner bit to counter-sink), although not really required. If you have a 1/4 button head (round) machine screw your can just counter sink it on the bottom and it will be fine.
