In this project i make my boys new c3po costume and i use only tinkercad and 3 shapes. With 3 shapes you can do much fun if you understand how the tools working. ;)

I still miss 360!! but this is my own challenge to use only tinkercad to make a whole costume for my boy.

Yesterday I forget upload one longer model of arm. All files most resize of child but i try do design a model for easy resize.

This is a prototype so feedback is nice ;)

Next be the head and I have start ;)
