Modified version of (I think) card holder, made by Predator Fan Expansion Set team (<https://www.facebook.com/groups/654138565868074/>)

I'm not sure if this is their work, I got a model from an organized fan printing group. All I did was remix the model a little so it's more compatible with 3d printer player boards and looks a bit closer to vanilla ones. Print holder feet and glue them to the main body if you want the holder sloped (like vanilla one).

All credits to the author (which I think are guys who made Predator Fan Expansion Set)
