My version of the statue of Red XIII from the FINAL FANTASY VII Remake.

It is divided into 29 parts for easier printing and preservation of all details.

I hope you will like it

Print instructions

I tried to turn each part straight for printing, but it is possible that you will find a better position ;).

Print the bracelet 4 times, they are the same for all legs and the earring 3 times

Unfortunately, supports are needed for some parts, but mostly only for stabilization during printing

I do not recommend shrinking because some parts would not be able to be printed on FDM printers
