Summary

This is a 2x 60mm fan adaptor bracket for the Open Benchtable (OBT).

[Gadgets](#) > [Computers](#)

This is a 2x 60mm fan adaptor bracket for the Open Benchtable: <https://openbenchtable.com>

We have designed it in order to have improved VRM cooling on one of our demo setups at Computex 2019: <https://noctua.at/en/noctua-at-computex-2019>

For Computex 2019, we CNC milled the bracket from aluminium, but it can also be 3D printed.

The bracket has been designed for use with the Noctua NF-A6x25 series fans, which can be mounted to the bracket using the supplied NA-AV1 anti-vibration-mounts: <https://noctua.at/en/nf-a6x25-pwm>
