### Summary

More comfortable forehead strap.

Tags: [covid19](#) [covidfaceshield](#) [faceshield](#)

The original Prusa design was too uncomfortable on my forehead, so I removed the vertically printed forehead strap and replaced it with a horizontally printed strap that is more flexible. Stick a soldering iron through the holes into the frame to connect the strap to the shield.

I also designed an adjustable headband for this face shield: <https://www.printables.com/de/model/314363-adjustable-headband>
