Summary

This is an inexpensive, easy-to-print front plate mount for a MK7.5 Volkswagen GTI

I wanted to design a front license plate mount for my 2019 Volkswagen GTI (MK7.5).

Required hardware:

- 3x 6" zip ties
- 2x M6 Brass Inserts (I used some from [McMaster Carr](#))
- 2x M6 Stainless Steel bolts (I used [security Torx from McMaster Carr](#))

Printing:

I printed this with ApolloX ASA in a non-heated enclosure.

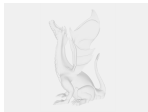

- 0.4 nozzle
- 0.2 layer height
- 30% infill

- 5mm brim
- Model has built-in corner hold downs for best adhesion for warp-prone materials (e.g. ABS, ASA)
