I remixed the logo from <https://www.thingiverse.com/thing:2158638> in Tinkercad, so that the sword acts as a bookmark. I printed it with Silver PLA, 20% Infill, 0.2 resolution. Be careful with lifting the print from the printplate because the perimeter of the sword is very thin. Otherwise it's a very easy and fast print (20 min. on Prusa MK3S).
