Summary

A box for use next to the bed or on a side table for an LED remote, chargers, charging cords, headphones, tv remote, etc

[Household](#) > [Bedroom](#)

I designed this box for my girlfriend. All of her things kept falling down by the side of the bed and getting lost. I designed this box so she had a place to put her 18650 charger, a few bottles of vape juice, her LED remote, earbuds, and phone charger.
