updated 21. 1. 2023 | published 21. 1. 2023

## Summary

1U rack in 2 pieces, with front cloud key on/off button

[3D Printers](#) > [Test Models](#)

Tags: [1u](#) [networkrack](#) [ubiquiti](#) [unifi](#) [unifiusr](#) [usg](#)

printed in PLA 0.2 standart Sovol SV01Pro slicing profile.

minimum bed size 280 x 240.

there are 4 places for RJ45 network jacks in case you dont have the female/female RJ45, you can make a 2" cables with one RJ45 on each end. In case you have the F/F connector insert you disregard the back ones.

01/21/23 added a left side rack update V2. I moved both cable management hooks to different location.
