Wall mount for a Kaercher T7 / T-Racer surface cleaner. Holds the T7 by one of the extension tubes. Use 4mm screws.

Printed in PLA, but other materials will also work. For outside use, PETG or ABS/ASA will be better.

Does not need supports, but you might want to increase the perimeters to 3 or more (depending on nozzle size). I used a 0.6mm nozzle and 3 perimeters.
