A straightforward remix of the shards container from [Fabmaszter's great Wonderland's War organiser](#). I wanted to keep the two types of shard separate and also added a dedicated spot for the die while I was at it.

The outer dimensions are the same as the original model so just print this one instead of the original shards container, and then print all the other files from the original upload.

I printed with a 0.4mm nozzle, with 2 walls, 2 top and bottom layers, and 10% infill.
