updated 13. 11. 2022 | published 13. 11. 2022

Summary

Dresser drawer handle or a handle for what ever. I use M5 bolts and they self thread into the handle.

[Household](#) > [Other House Equipment](#)

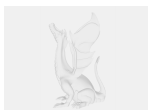

A simple design for a drawer handle were the holes are 89 mm apart.

I included the fusion 360 file in case you want to alter it.
