This is a crude modification of two Printables.com projects:

- **ZimaBoard Wall Mount w/SSD:**

<https://www.printables.com/model/178994-zimaboard-wall-mount-wssd>

And

- **ZimaBoard Wall Mount for Generic PCIe cards:**

<https://www.printables.com/model/215289-zimaboard-wall-mount-for-generic-pcie-cards>

Specifically so that I could use the existing ZIMABoard Plates with a SATA SSD Installed and also raised enough to have the PCIe Board connect with support.
