Behold, a wall mount for the Samsung Galaxy Tab A7 Lite which you can print on a Prusa Mini+. To do that, just make sure you print vertically. The model features 2 screw holes for leveling but no charger port.

Why no charger port?

I wanted a wall fix which allows me to add and remove the tablet from the wall and onto my desk without much hassle. Additionally, the tablet has a very decent battery and lasts 3-4 days without charge in my case when running a home assistant dashboard on it.

Feel free to remix the model on Tinkercad: <https://www.tinkercad.com/things/ljDwFhIdNE0>

Parameters:

Printer: Prusa mini+
Filament: eSUN PLA

Infill: 20%
Brim: yes
Orientation: vertical
