updated 11. 11. 2022 | published 11. 11. 2022

### Summary

This is remix to Micros swiss cover to use 4020 blower fan for parts cooling

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [cr10](#) [crealitycr10](#) [crealityender3](#) [ender](#) [ender3](#) [ender3v2](#) [microswiss](#)

This is a remix it came from thingiverse here is link to file <https://www.thingiverse.com/thing:5358828/files>

You will need longer screws to bolt on the the 4020 fan but all other parts that come in box still works.

#### Print Setting

.2 layer

10% infill

will need support

print in ABS or material that can handle heat( cant print in PLA but may not last as long )

If you like to support me please go follow me on TikTok blake3dprinting
