updated 24. 7. 2023 | published 24. 7. 2023

Summary

This is not a spectacular one but I paid special attention to the cable routing. Look at the pictures...

[3D Printers](#) > [Accessories](#)

I did not want to use plugs, when I remove the top part of the enclosure, so this is what I did. You can change the size of the switch by the scad-source: it's parameterized. Try it and give me your feedback!
