## Summary

A popular sushi restaurant in Japan that has a decent variety of different platters on their menu, and for cheap!

For those who are or have lived in Japan, then you know this joint!

This restaurant, among other sushi spots, is a favorite of Foreigners and Locals alike!

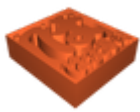

The dimensions are small: L: 50 mm W: 50 mm H: 7 mm

Recommend printing this one slow and use Wall thickness of MAXIMUM 2 layers. Unless you enlarge this model, 2 layers for the walls is good enough to maintain the details on the sign.

Make it into a keychain, a sign for your mini building models, or slap it on something else.

I hope you enjoy this and have fun!
