Summary

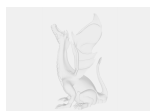

Use a 92-94 Ranger blower motor on a 1969+ Toyota FJ40

This is a blower wheel to adapt a 92-94 Ranger heater blower motor to an early model Toyota FJ40 land cruiser. I would not print this on FDM as the layer lines would make the part weak in key areas, but it should fit on even the most basic SLA printers. JLCPCB can also SLS this part in nylon for fairly cheap.
