Simple guitar rest for the edge of your desk. The size desk it will fit as-is is 26.5mm

If you want to make it fit your desk, change the X scale to the thickness of your desk +4mm.

Example: If your desk is 35mm, make the X scale 39mm to account for the 4mm arms. Watch the video for demonstration.

There is a 10 degree lean and a 22 degree lean. This was meant to be easily removed or moved around. But there are options that can be screwed from beneath.

I printed in TPU at 5% but my specific TPU is quite stiff compared to most.

### Print Settings

**Printer Brand:**

Crealitiy

**Printer:**

CR-X

**Rafts:**

Doesn't Matter

**Supports:**

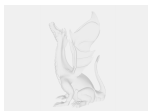

No

**Filament:** Priline TPU Yellow

**Notes:**
