

## Mini Jack - an even smaller remix (with Rail close)

Serenitee

[VIEW IN BROWSER](#)

updated 11. 11. 2022 | published 11. 11. 2022

## Summary

Remix: 72% (3.7"/94mm wide) of original size, and new rail closure (assumes gluing face in place).

[Household](#) > [Home Decor](#)

Tags: [halloween](#) [pumpkin](#) [nightmarebeforechristmas](#) [jackolantern](#) [jackskellington](#) [oogieboogie](#) [halloweenpumpkin](#) [tealight](#) [remixed](#) [cheshirecat](#)

This is an even smaller remix of [thjelmfelt's Jack O'Lantern with snap on faces](#), but the faces do not snap on - instead the face is glued, and the back slides into place with a fresh rail remix for a firm closure (without the weak 'tag' on [Smaller Jack](#)), no lost clips, and easier interior access.

There is a small tealight holder indent for a 36mm electric tealight (36mmx36mm tealight used in photos).

4 parts, printed with 10% infill, 0.2mm, using esun PLA+ (cool white, and black) and CC3D PLA MAX (orange and green), no supports.

4 Face Options:

- Jack Skellington (remix)

- Oogie Boogie (remix)
- Moon Kitty (original)
- Cheshire Cat (original)

For creation of additional faces, there are 3 file options:

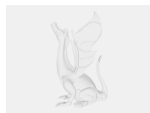

- Mini Blank Face.stl
- Mini Jack - Blank Face Template.3mf
- Mini Jack - Blank Face Template.f3d

When creating your own faces, ensure the direction is correct (arrow on back side), and the face features fit within the inner oval area.

## Model files

**cheshirecat.stl**

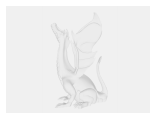

**mini-blank-face.stl**

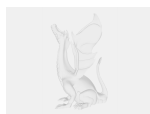

☐ Template for your own original face

**mini-oogie-boogie.stl**

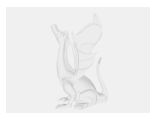

**mini-jack.stl**

**pegs.stl**

☐ Alternate pegs that may work better than those in the mid & back file

**stem.stl**

☐ Screws in

**mini-jol-mid-and-back.stl**

☐ Includes middle pumpkin with rail, back with rail slot, and pegs

### **moonkitty.stl**

☐ Has 1 full layer coverage to give a more uniform glow than full cut-out

---

### **mini-jack-blank-face-template.3mf**

☐ Template for your own original face

---

### **mini-jack-blank-face-template.f3d**

☐ Template for your own original face in Fusion360
