Summary

This is a replacement pod for the FT Mini Arrow from Flitetest. It is more durable than the original one.

Use this as replacement for the original one. You need **8 Magnets** 4mm x 2mm for the battery the battery cover and front cover. And a hot glue gun.

Battery cover is easy to remove to change the battery. There are two front covers. One with a cut out for an **AIO FPV cam** and another one without.
