Tags: [hook](#) [peg](#) [screw](#) [panel](#) [cabinet](#) [16mm](#) [mop](#)

This hook is to hang a mop above a bucket, suspended from the side of a tall cabinet in your kitchen, closet, or anywhere else you have access to the top edge of a vertical panel. It features a 7/32" hole to accept a round head screw (don't use flat head or the hook will split). It can hold around 5lbs (2kg) without issue, or about the weight of one wet mop.
