I re mixed 3dGloop's "Chonky 3D Print Example" I wanted a smaller version and thought a making this into a nozzle holder would be a great idea. Credit to 3dGloop for making such an amazing model. 0.4 is upside down on my model FYI lol. Fits 9 nozzles :) Please let me know if there is anything i should change, i.e the nozzle model size. I made it big but not sure it its TOO big.

This remix is based on

Chonky 3D Print Example

by 3D Gloop!
