Summary

Modular 003 drawer with 10 compartments,

[Hobby & Makers](#) > [Organizers](#)

I'm using this for holding tiny screws for glasses and watch repair.

These compartments are still far too large for these tiny parts, but there is a reasonable limit for getting a finger into the compartment for fishing out a screw. I had 18 total unique items to sort and split them across two drawers for ease of use.

This remix is based on

Modular shelving system - Hobby & Workshop - Small parts storage
