I know this award is due to the **overall effort** I put into this- but you have to know I **had a blast** the whole time! **Thanks to E3D** for putting on this contest!!

Here's a collection of my **E3D Buggies** to go with it: <https://www.printables.com/social/336804-triple-g-workshop/collections/405368>

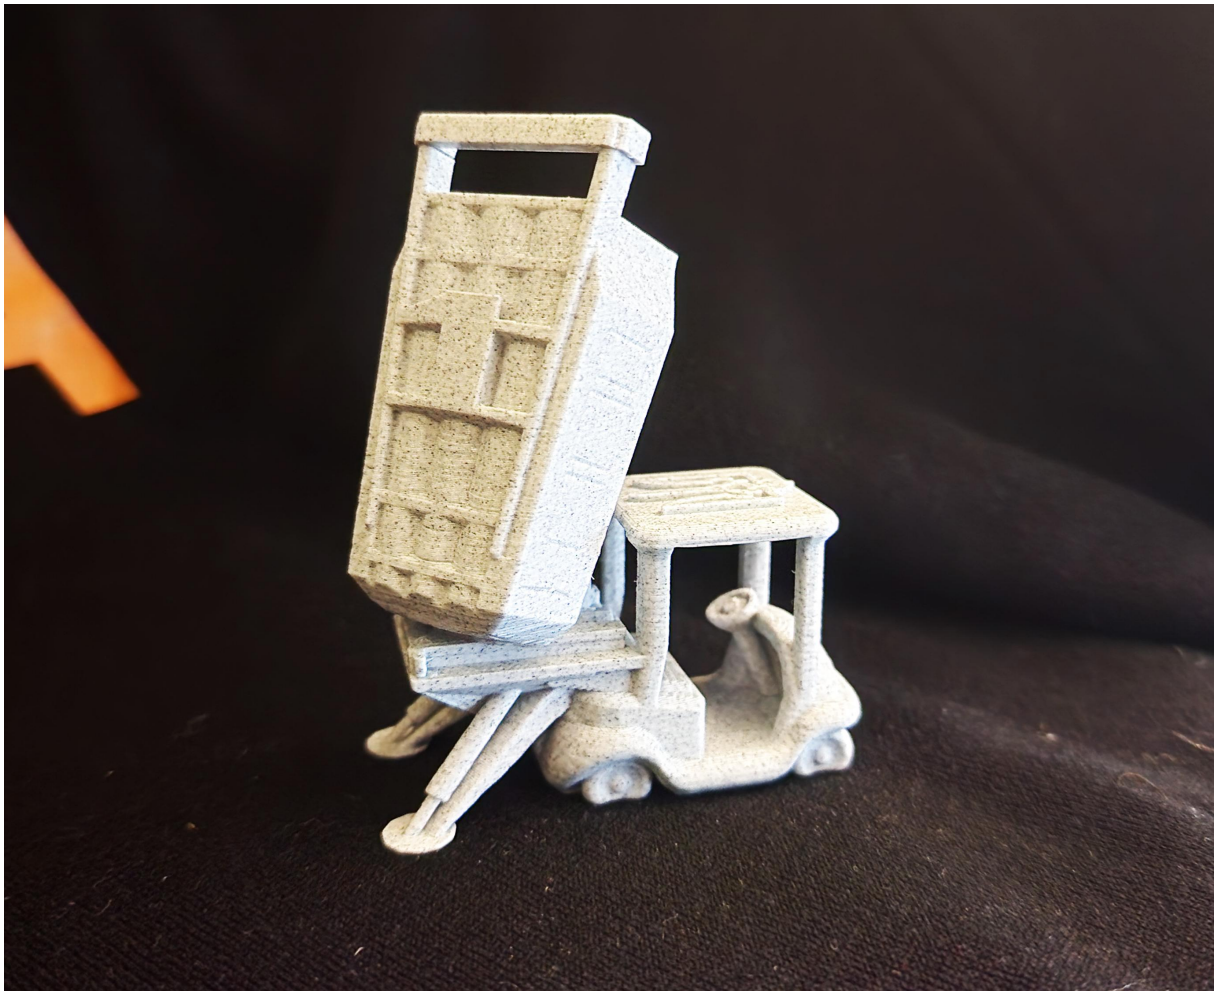

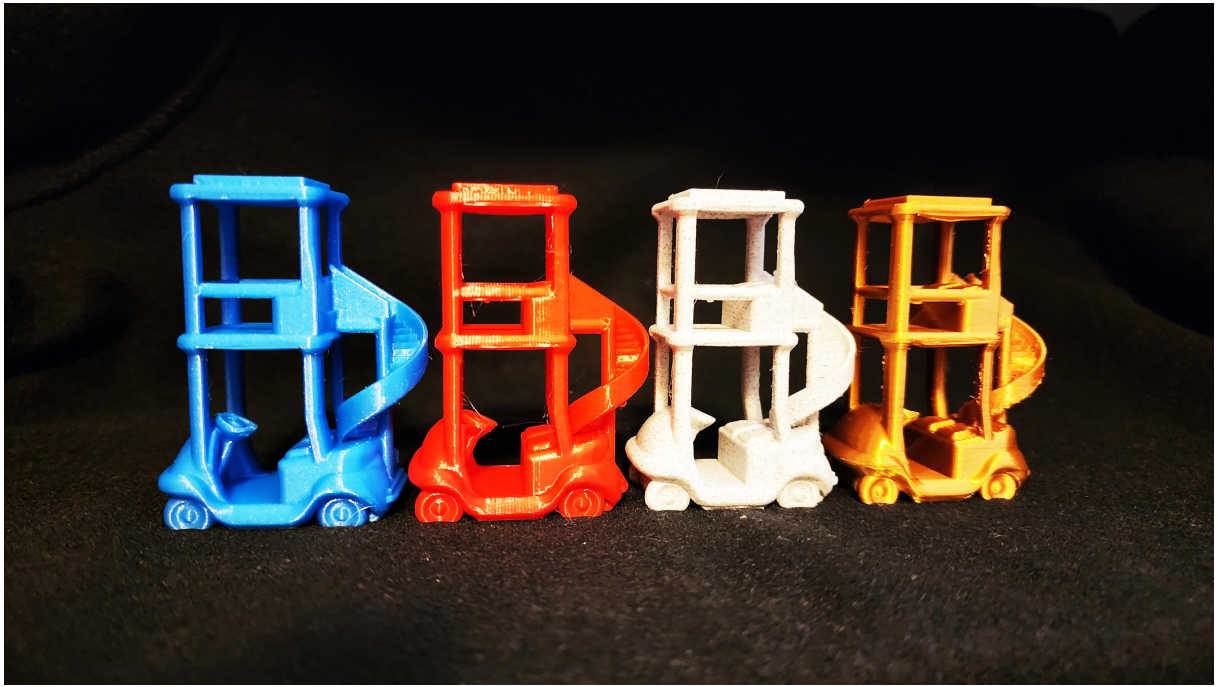

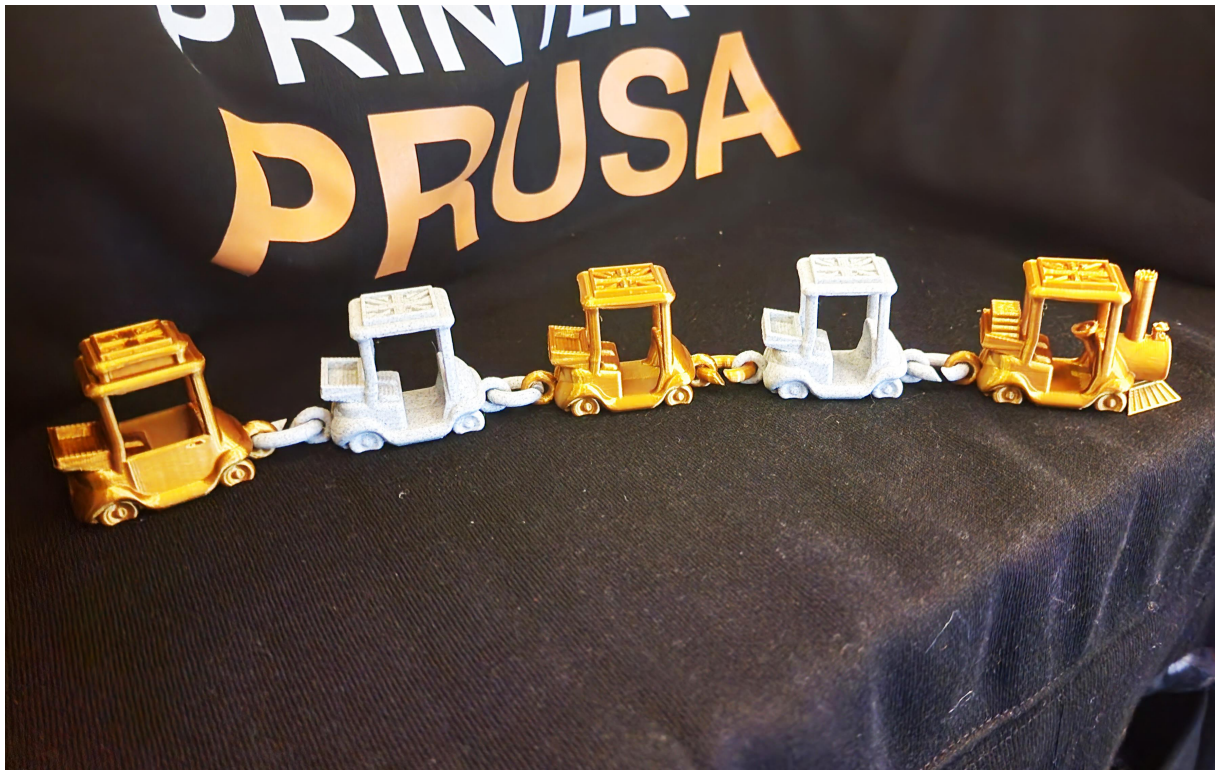

Don't block the bins!

I accentuated a few details and ignored others but pretty happy how it turned out from 5,000 miles away. I especially like the waste bins. This was a fun little project.
