updated 24. 11. 2022 | published 24. 11. 2022

Summary

A quick print to fit a 1.5 inch (38mm) battery tealight.

Tags: [lampshade](#) [tealight](#)

Resize and print this model to fit the top of your battery operated tealight in vase mode, you may need to remix to accommodate for the size of your flame.

It has a few holes when sliced on the top of the leaves but I think it adds to it's character.

As pointed out by @**minist3r** cura has issues with the center hole. I have added a remix, and the profile I used for slicing in cura to fix the slice.
Thanks @**minist3r**

☐ The flame hole is a shallow on this model since Cura doesn't play well with the original.
