I realized the gasket was missing on our dishwasher's detergent dispenser, so the detergent was always leaking out when the dishwasher door was closed. Rather than pay \$40 to replace the whole dispenser, I printed a gasket for pennies.

Material: TPU

Infill: 100% (Could be less to create a squishier gasket, my line widths weren't dialed in so I just did solid to prevent water getting trapped inside and creating mildew.)

Supports: No
