Scenario 21 of the Gloomhaven: Jaws of the Lion board game features two weapons shelf obstacles. I created a weapons shelf for the game by editing and combining .STL files from a variety of sources on Printables and Thingiverse:

Shelf Wood - Udos3DWorld

Simple Dagger (top, middle) - Nebulus

Thin Sword (top) - Horror-

Wide Sword (middle) - MelodicCougar7

Curvy Dagger (middle, bottom) - TheMidnightSmith

Loki Dagger (middle) - Aaron_Lime

Axe (bottom) - Gosga365

The weapons shelf file is provided both as a single structure and as independent shelves that are stackable to any degree. I also provided a blank shelf in case folks would like to customize their own.

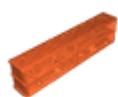

Wife did the painting!

How I Designed This

The original component .STL files were modified and combined together in MeshMixer.
