Summary

I watched his recent stream and someone made a joke about it so with 20 mins and Tinkercad I present this mash up.

Tags: [3d](#) [3dprintingnerd](#) [joeltelling](#)

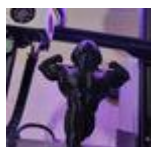

I have very little experience with modeling and Tinkercad but I got bored and it made me laugh. Enjoy trying it out. Not print tested but with a few supports should be fine. I take no credit for the 2 original models in this.
