Summary

A combination mount and cover to put a MeanWell LRS-350 against a flat surface, such as a Lack enclosure or similar.

I wanted a MeanWell LRS-350-24 PSU mount and cover that both isolated the contacts and secured the PSU while mounted on the back of or underneath an enclosure, while also accommodating the power receptacle from the Ender 3 v2. Unfortunately, none of the ones I found would work for what I needed, or were just bulky as heck, so I made my own.
