replacement scales for the leatherman squirt p4, e4, s4. Includes the tweezer holder for the E4 and S4.

also includes scales with the leatherman text. This is editable, currently for the s4 since that is what i was making it for. If you are printing text I would advice a much finer nozzle than the 0.4 that butchered this. I am going to try a 0.25 when I get my revo installed this week.

oh and pay no attention to how the tool looks all funny, I broke the scissors when trying to drive out the rivets on one side. I have another tool on it's way from ebay that will provide the scissors to bring it back to life.

you can edit the text below in tinkercad. I put my name and phone number on the back scales so if it gets found I might get a call.
