Summary

Print with the smallest Layer Height you can and 100% Infill. Each part should work with the original Counterpart.

Print with the smallest Layer Height you can and 100% Infill. Each part should work with the original Counterpart. You have to glue the magnet in and maybe soften the plastic a bit by heating it up.

If you need a base try this one: <https://www.thingiverse.com/thing:4259926>
