Summary

Socks for step-ladder's front feet.

[Hobby & Makers](#) > [Mechanical Parts](#)

Tags: [ladder](#) [ladderfeet](#)

Designed for my 3-step-ladder - approximate dimensions of the leg on the close picture.

I printed the stuff from TPU for flexibility and softness to not scratch surface.

Due elephant foot and possibly not the best printer settings for me the detail of the bottom part got lost, but still pretty much usable print.
