This is a simple universal laptop stand which provides a laptop angle of 10°. For most laptops 2 of these should be enough to give a good stand. The size is a cube with 30 mm size, the height is high enough to be about 20cm away from the beginning of the laptop.

Maybe not suited for big 15" or 17" laptops - test it.

If you want ventilation holes in the stand visit the other version which has a tunnel and ventilation holes: <https://www.thingiverse.com/thing:3669853>

## How I Designed This

### OpenSCAD Code

```
difference() {  
  
translate([0,0,0])
```

```
linear_extrude(height=30)

translate([0,0,0])

square([30,30]);

translate([0,0,30])

rotate([-10,0,0])

cube([30,40,10]);

}
```

Category: Office
