Insert for DeWalt/Craftsman ToughCase+

Kobalt 1/4" 19 Piece socket and ratchet set - <https://www.lowes.com/pd/Kobalt-Universal-19-Piece-Standard-SAE-and-Metric-Matte-Mechanics-Tool-Set/999957955>

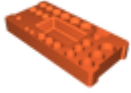

These will not work for DeWalt's old bit case with the slide latch.

** I have changed the design to rotate the blue finger socket driver 90 degrees because the design shown in the photo would interfere the ratchet from laying down flat. If anyone prints out the design here, let me know how it works!
