updated 23. 11. 2022 | published 23. 11. 2022

Summary

a screw-on suction hose coupling with a flange

[Hobby & Makers](#) > [Mechanical Parts](#)

print with a 0.6mm nozzle at 0.44 layer height and 0.8 line width for a fast print. Or go even higher, it doesn't really matter, it's not a precision part.
