I designed this to have more detail and more articulation than other snakes I have seen and printed. So much articulation! Really fun model.

Print size at 100% is 4.597" x 4.121" x 0.62" and makes a snake 24" long. You can scale it up as large as you'd like, or you can scale it down. I wouldn't go much lower than 75%, as the end tail segments begin to fuse.

Printed in copper PLA
