Just another holder for IKEA Koppla multiplug (USB version). It is a modified version from Olo Deepdelver's holder, changing the screw brackets to be inline with the multiplug to fit tighter spaces, fix on IKEA 4cm furniture legs, etc.

I've also added some reinforcement on the brackets, not sure it is actually needed. Therefore a no bracket reinforcements .stl file is also listed. Let me know how this works if you decide to print this version.

Enjoy.
