THANKSGIVING NAPKIN HOLDER

- Part called **“Turkey_Right_and_Left”** print **2x**, part **“Holder”** print **1x**.
- Print with **0.15 layer height** and **50% infill**, that way will those parts slide to itself easily.
- You can find prusa mini gcodes down in “sliced files”
- **DONT PRINT THE STL “!!!DO NOT PRINT IN ONE PIECE!!!”, as you have to print all parts separately**

How to assemble:

- After printing, slide both “turkey parts” to rails on Holder and your own napkin holder is ready to be used! ;)
