updated 23. 11. 2022 | published 23. 11. 2022

Summary

Spacer to be used when changing the FEP on an Elegoo Saturn S resin printer.

The official YouTube video from Elegoo recommends using an 80x80x8mm sponge:

https://www.youtube.com/watch?v=D3LI2_m00Uk

Unfortunately those are almost impossible to find where I live. I made this spacer and printed it on my Ender 3 Pro. I then glued some microfiber cloth to it.

I have an Elegoo Saturn S, but I believe it will work with any of the Saturn models.
