Tags: [feeder](#) [rabbit](#) [buffer](#) [patch](#) [locker](#) [carrot](#) [ercf](#) [ercp](#) [enraged](#) [array](#)

The Enraged Rabbit Carrot Patch Buffer Array had lockers for 4x and 6x, but none for 5x, so I modified the original files and created one. A buffer for 5x filaments is perfect if you're using a Prusa MMU.

For the rest of the printfiles of the buffer array, I'll point you to their GitHub: <https://github.com/EtteGit/EnragedRabbitProject>

Note: This is for the 33.5mm spacing array, NOT the 40mm spacing.

I added the .step-file if you want to modify/remix it.
