Summary

Coin holder for your coin collection

[Gadgets](#) > [Other Gadgets](#)

Tags: [coin](#) [coinholder](#)

This is a coin holder for your coin collection to put on a shelf or show-off.

It can easily be scaled up or down.

In the original size, I suggest a maximum coin diameter of 60mm, which should be fine for most coins.

Print with:

- 0.15-0.2mm layer height
- any filament
- make sure that sufficient cooling is provided for the small features
