This is a Token Dispenser for specifically designed for Festival/Concert payment Tokens like the one seen in the picture. It holds 13-15 Tokens.

You'll also need a spring (35mmx9mm / https://www.amazon.de/gp/product/B07WFPPXXX/ref=ppx_yo_dt_b_asin_title_o01_s00?ie=UTF8&psc=1)

The easiest way to install is to push the spring onto the Spring Plate first and then insert them both together into the Dispenser. If needed the spring can be secured with a drop of hot glue but usually the groove on the bottom gives it enough hold.

I included a .blend in case you want to change/remix something.

Still work in progress small details might change

Print Settings

Printer Brand:

Creality

Printer:

Ender 5
