Print instructions

for assembly follow page 1 photo :) this model is designed to be printed in a transparent pla allowing you to use a led light kit to light the model up :) parts of the model labelled (blue) should be printed in the transparent pla.

the cap ring needs to be glued into 6 blue, you need to push into the part and turn it in place then glue it. have a look at the cap ring example photos for a better look :)

print settings

3 wall parameters

15 % infill

use a brim if needed

parts that don't need supports
