### Summary

A fan guard for the Ender 2 Pro with supports for googly eyes and 5 LED sequins from Adafruit.

[ender2pro](#)

I printed this in PLA with a 0.2mm layer height. The mounting holes take M3 countersink machine screws. The googly eye supports are 12mm diameter.

For the Adafruit sequin support (<https://learn.adafruit.com/adafruit-led-sequins>) I soldered them to the underside of a 4 strip piece of stripboard.
