A simple, minimal snowflake ornament for your Christmas tree. You can fit the loop over a branch, or hang it from a string. I didn't look at any other models before designing this, so I hope it's not too similar to others. I designed this model because I wanted to have a super simple, super cute ornament for our tree. I think it's one of the best because each one takes <3 grams of filament (with my settings) and looks great. I hope you enjoy this model!
