Summary

I modified the buggy in PrusaSlicer to print in colour on my MMU2S

[3D Printers](#) > [Test Models](#)

Tags: [mmu](#)

This is a more colourful version of the E3D buggy. Printed on an MK3S+ with my MMU2S. 374 filament changes and one fault which was due to poor filament is not bad.

Unfortunately the Union Jack did not print as well as I would have liked.

This remix is based on
