updated 24. 11. 2022 | published 24. 11. 2022

### Summary

Enlarged version of the Cable Comb by Chris D to support CAT 7 cable.

[Hobby & Makers](#) > [Tools](#)

This is the original model created by Chris D, but the X/Y size is increased by 25% to allow it to be used for larger diameter cable like Cat 7 ethernet cable. This increases the opening of the tool to about 8mm. The outer ring is only 24% larger than the original to allow a bit tighter fit.
