I really liked the original design, but I wanted something longer so I made this little connecting piece. Basically, I brought it into Fusion 360, flipped a model over, aligned them, then I cut it, joined and this is how I got here. It's eXtendable to however long you want by printing more springs, couplers, and joints. Enjoy!

Print Settings

Printer Brand:

Creality

Printer:

Ender 3 Pro

Rafts:

Doesn't Matter

Supports:

Yes

Resolution:

200

Infill:

25

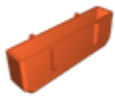

Filament: SUNLU PLA Black
